

Press Release

The Fair Trading Commission as part of its mandate is to cooperate with authorities in other countries entrusted with functions similar to those of the Fair Trading Commission by the provisions of the Fair Competition Act 2009.

Annually, the Global Competition Review compiles full contact details for competition agencies in over 100 jurisdictions, together with charts showing their structure and a Q&A explaining their funding and powers. The information gathered is featured in The Handbook of Competition Enforcement Agencies.

As usual, the Fair Trading Commission made submissions to the Global Competition Review.

The information is now published in The Handbook of Competition Enforcement Agencies 2018. The book is intended to provide general information on competition law, economics and policy.

For an authorized copy of the Handbook the public is requested to contact:
